THE INDIANAPOLIS NATIONAL BANK Corner Room Odd-fellows' Hall.

CONDITION OF THE MARKETS

THEO. P. HAUGHEY, Pres't. H. LATHAM, Cash.

Wheat Fluctuates in a Manner that Mystifies Many Chicago Speculators.

Prices Move Up and Down with Astonishing Suddenness and Without Apparent Cause -Corn Lower-Provisions Featureless.

MONEY, BONDS AND STOCKS.

An Extremely Dull Market, the Business Being in the Hands of the Traders. NEW YORK, May 31 .- Money on call was easy at 14 32 per cent, the last loan being made at 14. closed at 11 02

Prime mercantile paper, 406 per cent. Sterling exchange was dull but steady at 84.861 for sixty-day bills, and \$4.881 for de-

mand. The total sales of stocks to-day were 132,681 shares, including the following: Delaware, Lackswanna & Western, 8,914; Erie, 3,500; Lake Shore, 7,991; Louisville & Nashville, 4,220; Missouri Pacific, 9,143; Roading, 28,265; Richmond & West Point, 1,900; St. Paul, 27,045; Union Pacific, 7,125; Western Union, 4,500.

The stock market was again extremely dull to-day, the business done being entirely in the hands of the trading element, and the fluctuations confined to the smallest limits, while the tone of the dealings was heavy almost from opening to close, leaving the list fractionally lower as the result of the day's trading. There was no news of any kind to affect values, and the indisposition to trade was very marked. Stocks were in good demand in the loan crowd. but there was no urgent inquiry for stocks, and the traders did most of the selling. There was no animation at the opening, and most of the active stocks opened unchanged from Tuesday's final figures: there was some slight improvement in the first few minutes on the execution of the this movement soon ceased and a moderate pressure was brought to bear on the list, which forced prices off, the decline being accompanied by a little more activity. The widest move-ments were in Missouri Pacific, which, after an advance of 1, reacted 1 per cent., and New England lost 1 per cent, after a slight rise. After that time the market remained almost stagnant, with a generally weak tone and with the dealings monopolized by less than a half dozen stocks. The decline became more pronounced after noon, however, and New Eagland, St. Paul and Missouri Pacific were most promi-nent. In the last hour Omaha, which had not sold a share up to that time, suddenly declined I per cent. on a small business, but there was no further feature of any kind in the market, and it closed extremely dull and rather heavy at small fractions below the opening figures. The entire active list is lower this evening, though, with the exception of Omaha, which lost 1 per cent. The declines are for fractional amounts

Railroad bonds, like stocks, were dull, and the dealings were almost entirely devoid of feature. The tone of the market was much mixed, and while the final changes are generally for small fractions only, they are very irregular.

The total sales were \$930,000. Northwestern extension fours rose 2, to 971. Northern Pacific terminals, 3, to 105; San Francisco, class C, to 1161, and Cairo, Arkansas & Texas firsts, 2, to Atchinson, Colorado & Pacific firsts lost 3, at 101, and Green Bay incomes, 3, at 324. Government bonds were dull and steady.

State bonds were dull and without change. Closing quotations were: Can. Southern 2ds. 92

8.60 @8.68c: October, 8.59 @8.60c; city steam. Butter weake r and unsettled; Western, 120 19c. Cheese gut 15 and easier.

CHICAGO, May 3. - The leading feature on Change this morning has the unsettled condition of the wheat marks to The action during tion of the wheat marks. The action during the first hour was even more sensational than the mysterious drop on Tues day. The price for July started at 85c, or ic hoster than the last price quoted Tuesday. In three mainutes it sold at 86ic, because there appeared to be no wheat for sale. Then there was a suddlen reastion, and the prices went down to 84c, a drop of 2ic, with the weakness and strength equal, v strange to the crowd in the pit. After this phe tomenal action July sold until noon between 84% a 84%. The volume of business was not large, but the crowd was yery nervous. A few big houses were prominent sellers on the way down, and this gave the tumble something of the nature of a raid. Other futures in the excitement opened away up, and in less time than it takes to write the statement the market reached the top, but when the break in July came prices declined faster than they had climbed up a few minutes before. Later, July sold between 84 and 85c, nervously jumping about 10 is in a moment. There was a very large increase in the wheat on passage. Aside from this there were no features in the movement of figures. July closed at 85 285 2c. The opening prices and the early trading indicated great strength in corn, but after prices advanced a few points there was quite a let-down in May, and other futures quite a let-down in May, and other futures weakened and went away below the closing prices of Tuesday. May sold early at 56c and up to 56c, then back to 55c by slow degrees, and before the close went down to 54c. July touched 55c and sold down to 54c, closing at 54c. Receipts were 975 cars, of which 634 cars graded No. 2. Gats were quite active, May delivery attracting special attention. There was still quite a large "short" interest, and there was brisk trading at advanced prices. May sold at 37c closing at 37c. July sold at 33c as slow, featureless and uninteresting. The little trading indulged in had largely in view the changing over of some outstanding contracts to a later month. Prices, however, held steady in spite of large receipts. July pork sold at in spite of large receipts. July pork sold at \$14.12\frac{1}{2} \overline{10} 14.07\frac{1}{2}, and closed at \$14.12\frac{1}{2}. July lard sold at 8.45\overline{20} 8.47\frac{1}{2}e, and closed at 8.45c, July short ribs at 7.52\frac{1}{2}\overline{20} 7.57\frac{1}{2}e, closed at 7.55c. The leading futures ranged as follows:

Opening. Highest. Lowest. Corn-May August... August ... 283 14.0719 14.1719 8.3719 14.1219 14.1219 July 14.10 Angust... 14.1719 14.2249 14.20 8.40 8.45 00-----July..... August ... 8.50 October .. 8.524 ShortRibs—J'ne 7.474 October .. 8.5212 tRibs—J'ne 7.4712 July.... 7.5212 August... 7.6212 Sept..... 7.70 7.5719 7.65 . 7.7319 Cash quotations were as follows: Flour quiet;

prices firm on winter, and 10@15c easier on patents from outside prices a week aga. No. 2 spring wheat, 834@84c; No. 2 corn, 544c; No. 2 cats, 37@374c; No. 2 rye, 65c; No. 2 barley, 69@694c; No. 1 flaxseed, \$1.27 201.28; prime timothy-seed, \$2.25; mess pork, per bbl., \$14.2014.05; lard, per pound, 8.37\frac{1}{2}.200 8.40c; short-rib sides (loose), 8.47\frac{1}{2}.200 8.50c; dry-saited shoulders (boxed), 6.26.25c; short-clear sides (boxed), 8.10.28.15c. Whisky, distillers'

finished goods, per gallon, \$1.19.

On the Produce Exchange, to-day, the butter market was unsatisfactory to holders, and stock accumulating; creamery, 14@17c; dairy, 15@16c. Eggs firm and quiet at 131@14c. Receipts—Flour, 36,000 brls; wheat, 76,000 bu; corn. 874.000 bu; oats, 611.000 bu; rye, 4.000 bu; barley, 17,000 bu. Shipments—Flour, 18,000 bris; wheat, 31,000 bu; corn, 279,000 bu; oats, 198,000 bu; rye, 2,000 bu; barley, 3,000 bu.

TRADE IN GENERAL.

Hogs—Market dull and lower; common and light, \$425.55; packing and butchers', \$5.3525.75; receipts, 4,375; shipments, 1,500.

INDIANAPOLIS MARKETS.

A Moderate Trade in Progress, with a Steady Tone to Prices.

INDIANAPOLIS, May 31. With the great majority of staple articles free from any speculative tendency and the absence of any radical influences to disturb matters, the market varies but little in general form. Buyers are so well posted that they are enabled to make their purchases close. But few large bills are bought and duplications are frequent. In staple groceries prices are without a shading, so close are margins. The tendency of the coffee market is downward, although no changes were made in quotations to-day. The New York Commercial Bulletin, of the 30th. says of coffees: "On the street market for Brazils the general expression seems to be an independent one so far as any ordinary decline in exchange values may occur through the invitations of speculative manipulation, and a tendency to assume that the cost of actual goods has natural support and possible further buoyancy without requiring any special aid from an advance in contracts. These feelings have become more pronounced since interior buyers, actuated by both choice and necessity, resumed the demand temporarily checked by the first upward surge of prices, and beyond ordinary bills of a temporary character no positive duliness is looked for during several weeks to come, because contracts have made a further drop, and no really new sales were reported, but it was not shown that goods could be obtained for any less money, and openly at least the offering con-tinued moderate. Contracts have been fairly active, with some slight irregularity on value, but the general course of the market was easier. The produce markets were fairly active. Hens and chickens go off a cent. Eggs are coming in more freely, and lower prices are indicated. Butter arriving in large quantities, and the market weak. New potatoes, and early vegetables generally, coming in quite freely; prices easier.

Strawberries in good supply, at prices varying with quality. Some very fine Indiana berries are offered, and they bring good prices, but inferior fruit is hard to dispose of. The provision market is active, as compared with a month ago, and prices in the main rule firm. Oranges and lemons in light supply, but as the demand is rather slow they do not advance. With the coming of warmer weather a better demand for lemons is looked for, and slight advances in prices may be established. The millers speak of flour as being in good demand, but they are not increasing their production, so difficult is it to get wheat at prices which leave them any margin after converted into flour.

GRAIN. It was an off-day in the local market. The attendance on 'Change was slim and the bidding lifeless. The Indianapolis Market Report says: The movement in grain continues to fall off. Inspections for past two days amount to twentyone cars, as against thirty-two cars for preceding two days. Wheat is quoted lie below Tuesday's prices. The demand is slack and buyers

make their own prices, and get what little they need. Before call No. 2 red was offered at 93c to arrive. Corn is very dull. In a small way No. 2 mixed or No. 2 yellow would bring 55@55jc. White grades are salable at prices below quoted. Oats market is dull at unchanged figures. The demand is entirely from city jobbers. Bran is slow sale. Hay is in fair demand at prices quoted. Track bids to-day ruled as follows:

Wheat-No. 2 red..... Corn-No. 1 white..... Sound ear white ound ear yellow..... Oats-No. 2 white..... No. 2 mixed.... June..... Bran \$13.00
Hsy-Choice timothy 17.75 No. 1 timothy 17.00

Statuing Woods.

Detroit Tribune. Stains of various kinds are in such extended use that these recipes may be of some interest to housekeepers. They are all reliable. An excellent mahogany stain is made by boiling in one gallon of water eight ounces of fustic. To mitate the grain of the wood take a small brush and dip it in black stain and streak the surface before it is quite dry. This requires a steady hand and correct eye, besides a knowledge of the wood, or the effect is spoiled by daubing. The plain stain is just as good for ordinary purposes. For a cherry stain, mix toether by stirring one quart of spirits of turpentine, one pint of japan, one pound of Vene-tian red, ground in oil, and two ounces of dry burnt umber. Apply with brush and wipe of with a soft cloth. Finish with one coat of shellac and two coats of varnish.

For walnut stain, a thin solution of per-manganate of potassa in hot water will make a good color. Apply several coats, allowing plenty of time to dry.

Boiled oil, in which a little turpentine is mixed, makes a good polish.

Farm Notes.

Improved plants are like improved animals; their very emprovement makes it necessary that the care by which they were produced should be continued. When this is not done they may not do nearly as well as an old kind, habituated to some extent to hardships. It is a fact that scrub farmers succeed best with scrub stock and

One mistake made with selling fowls is in growing them to a large size before selling. The best weights are from three to four pounds each. The demand is greater for such weights, as many buyers have found the larger sizes more expensive. Commission merchants report that while there is, of course, a demand for choice, large fowls, yet the smaller ones sell In 1860 the British vice-consul at Copenhagen

reported that the butter made in Denmark was exceedingly bad. Shortly after Denmark com-menced to establish dairy schools, and now has ten at the national expense, and her character has so improved that the Danish butter is the finest and best flavored in the British market. Every branch of agricultural industry could be improved here in the same way.

Staggers are the result of congestion of the brain, due to overfeeding. Pigs are more often overfeed than any other animals, and it is the source of nearly all the diseases to which they are subject. It affects the nerve centers in the brain and spinal cord. Give the pigs no feed at all for forty-eight hours, but only water, then begin feeding very lightly, and give the food in a shallow trough, so that it can be taken up only

This is the best time of the whole year to purify your blood, because now you are more susceptible to benefit from medicine than at any other season. Hood's Sarsaparilla is the best medicine to take, and it is the most economical-100 doses one dollar.
